

ENVIRONMENTAL MANAGEMENT

PWT is a full-service environmental engineering small minority-owned business with more than 25 years of experience providing environmental management, consulting, compliance, construction, and data-management services.

PROGRAM MANAGEMENT

PWT's comprehensive approach improves project cost and schedule while maintaining the highest standards of quality and safety.

- Program & project management
- Subcontract management
- Conduct of operations
- Project controls
- Integrated safety management
- Quality engineering
- Procurement
- Subcontract management
- Independent audits & assessments
- Document & records management

ENVIRONMENTAL CONSULTING

PWT provides fully integrated environmental remediation services from investigation and design through construction and O&M.

- Remedial investigation/feasibility studies
- Engineered remedial design
- Remedial action
- Engineering evaluation/cost analysis
- Construction remediation management
- Data management & GIS
- Operation & maintenance of remedial systems
- Regulatory compliance & negotiations support
- Public participation & community involvement

REGULATORY COMPLIANCE

PWT has extensive experience with the technical and administrative issues associated with the full range of federal and state environmental and safety and health regulations.

- CERCLA, NEPA, & OSHA services
- Environmental, health, & safety
- Compliance management & monitoring
- Health and safety plans
- Permitting
- Spill prevention, control, & countermeasures
- Pollution prevention
- Community Right-to-Know Act reporting
- Hazardous waste & materials management

CONSTRUCTION MANAGEMENT

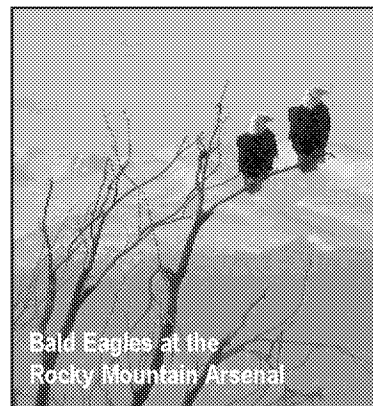

PWT provides fully integrated owner's representative design/construction management services to assist clients from concept through construction.

- Project concept & feasibility studies
- Budgeting & scheduling
- Procurement planning
- Design and oversight
- Contractor selection & administration
- Construction management
- Project documentation
- Environmental & geotechnical studies
- Records of survey & legal descriptions
- CAD documentation

GEOGRAPHIC INFORMATION SYSTEMS

PWT implements geospatial solutions to visualize data in powerful new ways.

- Consulting, design & implementation
- Data collection & acquisition
- Geospatial data management services
- Legacy GIS conversion
- Enterprise solutions
- Geospatial web solutions
- GIS outsourcing
- GIS emergency preparedness assessment

WHY PWT

- Award-winning services as a prime contractor on \$1-\$230 million contracts
- Senior-level leadership and expertise
- Nationwide capability
- Large enough to handle large, multi-year, multi-million dollar projects
- Small enough to be flexible and responsive
- Customized approach for each client
- Proven excellent customer service and satisfaction
- High employee retention
- Excellent safety record (.84 EMR)

REPRESENTATIVE CONTRACTS

Environmental Protection Agency, Remedial Action Contract 2, Region 8 Montana, Colorado, Utah, S. Dakota, California

PWT is the prime contractor on this 10 year, \$232 million contract providing oversight at CERCLA sites across EPA Region 8 and crossover work in Region 10. PWT has received 30 work assignments with values of \$35K-\$7.2M.

Services include program management, site management, remedial investigation and feasibility studies, remedial design, construction management, subcontractor acquisition and oversight, engineering evaluation and cost analyses, enforcement support, regulatory compliance, community involvement, sampling and analysis, risk assessment support, five-year reviews, and operations and maintenance.

"Excellent" client ratings for the 5-year base period of the contract. 5-year option awarded by the EPA in 2011.

Environmental Protection Agency, Region 8 Rocky Mountain Arsenal, Colorado

PWT provides enforcement/oversight services to the EPA for oversight of all RD/RA activities at the Rocky Mountain Arsenal Superfund site.

PWT assists EPA with community involvement including multiple National Priorities List deletions and property transfers; reviews design and analysis documents to ensure regulatory and technical compliance; writes draft technical comments, provides QA/QC of deliverables, and conducted the most recent five-year review; provides field oversight for remedial action construction, participates in final inspections, and reviews all records and construction completion reports; evaluates, plans, and implements innovative remedial technologies; implements EPA's split-sampling programs; provides data management and GIS mapping; and provides negotiation and technical meeting support.

"Outstanding" client performance ratings since 2002. Awarded the follow-on contract in 2008.

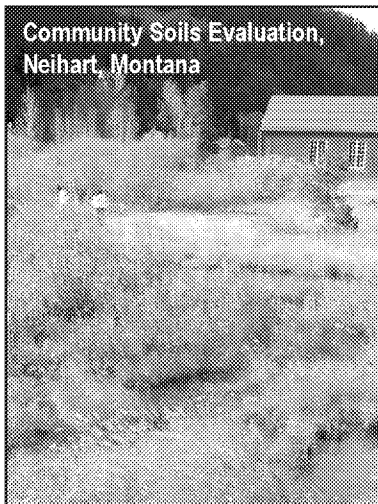

General Services Administration Denver Federal Center and GSA Region 8

As part of PWT's prime contract supporting the General Services Administration at the Denver Federal Center, PWT worked with the State of Colorado to implement a risk-based approach for assessing more than 600 potentially contaminated sites and 4 groundwater plumes on the facility. Contaminants range from chlorinated solvents, metals, and asbestos in soil to areas that conducted research on anthrax.

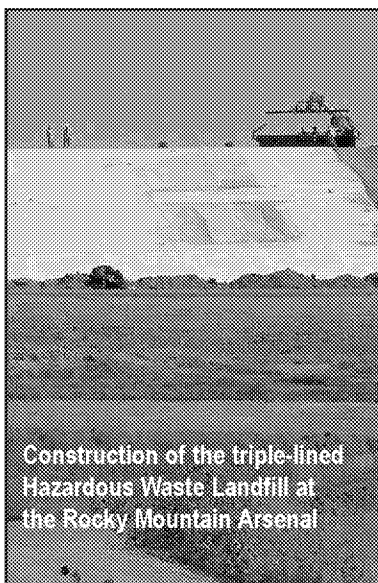

PWT provided regulatory negotiations and ensured compliance with all EPA and State regulations during site investigations, remediation, and waste management activities; managed three 90-day investigative-derived-waste storage facilities; reviewed design, construction, and O&M of ongoing contaminated groundwater remediation corrective measures; and performed regulatory analysis for Naturally Occurring Radioactive Material waste, which was successfully removed from State purview.

"Outstanding" client performance ratings. PWT has provided services to GSA over 5 consecutive contracts since 1999.

**Community Soils Evaluation,
Neihart, Montana**

**Construction of the triple-lined
Hazardous Waste Landfill at
the Rocky Mountain Arsenal**

**Asbestos Remediation at the
Denver Federal Center**

What our clients say about us

"Nice job on the Lockwood Community Involvement Plan!!" - John Podolinsky, Montana Department of Environmental Quality, Remediation Division, Federal Superfund Section, 12/2011.

"Thank you and your staff for a job VERY WELL DONE! The Milltown Five Year Review was signed this morning. We met our deadline." - Diana Hammer, Project Manager, EPA, Region 8, Montana Office, 10/011

"Contractor continues to do an excellent job under this contract ... Performance and timeliness of deliverables was excellent ... Contractor worked to identify field efficiencies. (PWT) has been proactive with resolving technical issues without impeding the schedule and was always accessible and responsive to EPA's requests." Outstanding performance rating in all five performance criteria. - EPA Rocky Mountain Arsenal oversight contract performance evaluation, 2009-2010.

"Given what I know today about the Contractor's ability to execute what they promised in their proposal, I definitely would award to them today given that I had a choice." - EPA Remedial Action Contract 2 performance evaluation, 2011-2012.

"This contractor Team is one of the hardest working and productive groups GSA works with. The contractor's level of performance is deserving of the highest rating available. They are flexible and meet the demanding, challenging, and changing requirements of GSA in the area of environmental issues." - 2009 GSA annual review for work performed at the Denver Federal Center. Outstanding rating for all five performance criteria.

"Many, many thanks ... for the very thorough review of the risk assessment, and for compiling all of the comments in a methodical, coherent, and well-organized fashion." - Wendy Pott O'Brien, DVM, Ph.D., DABT, Toxicologist, Ecosystems Protection and Remediation, U.S. EPA Region 8, 2012.
